

The Earth Is A Spaceship

by Douglas Wood

The earth is a spaceship, it's a beautiful ball,
A magical place, a living home for us all.
There's water and air, and we've got food for our trip.
If we just use our heads and take care of our ship.

Chorus: La-da-da-da, la-da-da-da...

Life is a circle and the line never stops.
It's always connected from the bottom to top.
From the whale in the ocean to the hawk on the wing,
We're all intertwined in an invisible ring.

Chorus: La-da-da-da, la-da-da-da...

But you know it's kind of crazy,
When we forget who we really are,
Just a little family spinning round a star.
And you know it's kind of sad,
When you think about the things that we lose
When we're digging for the dollar
And the land's only there to use.

The earth is a spaceship, it's a beautiful ball,
A magical place, a living home for us all.
There's water and air, and we've got food for our trip.
If we just use our heads and take care of our ship.

Chorus: La-da-da-da, la-da-da-da...
